

Mighty Mix Frozen Concentrate

How Much Should You Feed?

This guide is a recommendation only, each dog is different and will have their own energy needs. The feeding suggestions below offer a starting point for you to work from, keep an eye on your dog's weight and adjust the feed amount appropriately.

Quantity to feed per day based on a 150 gram cup.

This product can be fed in either a frozen or thawed state.

Dog Weight	Adult Maintenance Diet	Adult Active Diet
40 kg	2 cups	3 cups
25kg	1 cup	1 1/2 cups
10kg	1/2 cup	3/4 cup

Feeding Frozen Concentrate to Puppies

As Frozen Concentrate is a supplement food due to its high fat content, and not a complete food, we recommend that you combine this product with our Nourish biscuits, which are a complete food, to provide a well-balanced combined raw and dry food diet for your puppy.

Quantities to feed per day:

Dog Weight	Weaning to 4 months	4 months to Adult
10kg	50gm Frozen + 7 Nourish	40gm Frozen + 4 Nourish
7.5kg	40gm Frozen + 5 Nourish	30gm Frozen + 3 Nourish
5kg	30gm Frozen + 4 Nourish	20gm Frozen + 2 Nourish
